- Usable in kinder gardens, schools and most outdoor environments: Sailing boats, shipping, beach activities etc.

BOX IT AquaMate

Water Resistant Case for all iPad® versions

Ideal for kinder gardens, schools, universities and recreational use

BOX IT AquaMate is a low cost water resistant case for iPad®, especially designed for outdoor and recreational use.

With BOX IT AquaMate you can enjoy your iPad® in multiple environments, without risking getting it wet and damaging it.

The design allows the user to use the touch screen, home button and the camera(s) on the iPad®.

Within seconds the iPad® can be placed inside the BOX IT AquaMate and removed again without the need for tools.

Standard frame colours are white and black. Other colours on request and only with large orders.

Note: You can access the home button only, not the control buttons of the iPad® while it is placed inside the AquaMate.

Have a look at the BOX IT Tough Cases on previous pages if you need these options.
